

**CALL FOR ENTRIES
THE ARMENIAN FILM FESTIVAL**

SAN FRANCISCO

The Armenian Film Festival holds a bi-annual festival of works by independent filmmakers that presents the diversity of Armenian culture across the globe in any cultural, linguistic, and geopolitical setting.

The festival presents films and videos, features and shorts, documentary and fiction, narrative and experimental works by and about Armenians. We are interested in all forms of work - narrative and experimental, documentary and fiction, drama and comedy, features, shorts, music videos, children's films, and animation.

This year, 2008, the festival will focus its efforts on smaller-scale screenings with other arts and film venues. The festival is accepting submissions for these projects.
